CAREER OBJECTIVE

Hello, I'm Hoang, currently a third-year student majoring in Information Technology at the University of Science and Technology, DaNang University. My goal is to seek employment to enhance my skills and gain additional experience. After a internship, I aspire to become a full-time employee of the company, contributing my knowledge and dedication to its success.

EDUCATION

August 2021 - 2025

The University of Science and Technology, DaNang University

Specialized: Software Technology

PROJECT EXPERIENCE

Website Clone Quizlet

- Description: The website helps users remember English vocabulary with flashcards and provides numerous tests for review.
- Main Task: Design a database, write models, develop APIs, test APIs with Postman, build the frontend with essential functions like lesson viewing, testing, and card matching. Additionally, implement the ability to create new lessons and export them as xlsx files.
- Member: 01
- Frontend: ReactJs (JavaScript), Redux Toolkit, Ant Design
- Backend: Node.Js (Express)
- Database: MySQL
- Demo: <https://quizlet-frontend.nhodev.xyz/>
- Github: https://github.com/thuchoang2003/SERN_Quizzlet

Website Bookstore

- Description: An e-commerce website that facilitates searching, managing, and buying books, offering a convenient experience for buyers.
- Main Task: Develop the frontend with core functionalities, including search, view details, filter, add to cart, and order. Deploy backend on Render and frontend on Vercel
